School of Information & Department of Computer Science and Engineering

Research Interests

I design and build social computing systems (e.g., social media, workplace software) that are grounded in affirmative consent, an idea that a person or a system must ask for, and earn, enthusiastic approval before interacting with an individual. Existing social platforms enable or exacerbate two classes of problems that negatively impact society: 1) interpersonal harm people cause one another, such as online harassment, and 2) institutional exploitation of users, such as companies' invasive data tracking of users. Both are closely related to people's consent (e.g., "Do I decide to interact with this user?", "Do I opt into tracking for targeted ads?"). Thus, consent is an important concept to define when it comes to software design. In particular, it is critical to define it in a way so that the consent boundaries of even the most marginalized groups are protected. My research provides theoretical ideas about defining affirmative consent and encoding it into social software by drawing from feminist literature. Based on the ideas, I build socio-technical systems to enable consentful interactions—especially in high-risk contexts, such as when abuse of power exists in organizations. Furthermore, because there is a huge power imbalance between companies and users, I design privacy interfaces to give users more agency. I am also interested in investigating how users perceive social media's business models—which are a basis for companies' power over users.

Education

University of Michigan, Ann Arbor, MI Sept. 2018 - present
Ph.D. in Information & Computer Science and Engineering (enrolled in both via U-M's SIDP)
Thesis: Social Computing Systems Grounded in Consent (passed proposal)
Advisor: Kentaro Toyama
Committee: Kentaro Toyama (Chair), Emily Mower Provost, Mark S. Ackerman, Amy J. Ko

Korea University, Seoul, Republic of Korea Mar. 2013 - Aug. 2018
B.B.A. in Business Administration
B.S. in Computer Science and Engineering

Industry Employment

Meta, Menlo Park, CA (remote) Jun. 2021 - Aug. 2021
User Experience Research Intern for Facebook with Scarlett Sheng

Sassafras Tech Collective, Ann Arbor, MI (remote) May 2020 - Aug. 2020
Software Development & Research Intern with Jill Dimond

Airbnb, San Francisco, CA Research Intern Recipient 2020; deferred due to COVID

Awards and Recognitions

EECS Rising Stars 2023
Organized by Georgia Tech. 101 were selected to attend out of 290 applicants.

Meta PhD Research Fellowship 2023 - 2025
21 fellows were selected out of 3,200 applications. Receives a full coverage of tuition and university fees for two academic years, as well as a \$42,000 stipend. (Selected on my fourth try—I started applying from my second year.)

Finalist for CSE Graduate Student Honors Competition 2022
Recognizes "top research done by PhD students" at CSE. One of the five finalists of the last round. Awarded \$600.

Barbour Scholarship 2022 - 2023
Among the oldest and most prestigious awards granted by the University of Michigan, offering one year of funding to female students from Asia and the Middle East since 1917. Covers stipend of \$36,084 and tuition.

Select Research Experience

University of Michigan

Sept. 2018 - present

PhD Research

- Currently designing and researching social computing systems that give users more agency and protect people's consent boundaries in user-to-system and user-to-user interactions [c1, p1].
- Using social science theories, system-building, interviews, and surveys, uncovered how lack of consent lead to a wide range of problems on social media, with users wanting fine-grained privacy and safety tools [c2, c10].

Meta (Facebook)

Jun. 2021 - Aug. 2021

User Experience Research Intern, advised by Scarlett Sheng, Rui Yang & Ayesha Zafar

- Impacted Meta's privacy strategy by doing foundational mixed-method research to understand users' perception of consent in the context of online behavioral advertising and App Tracking Transparency. Quantitatively analyzed existing survey data to understand Facebook advertisers' goals.

Sassafras Tech Collective

May 2020 - Aug. 2020

Software Development & Research Intern, advised by Jill Dimond

- Built and conducted (remote) usability testing of a moderation system. Based on the usability testing results, designed mockups and further developed the moderation system.

Haystack Group, MIT

Apr. 2017 - Apr. 2018

Undergraduate Research, advised by Amy X. Zhang and David Karger

- Investigated how various factors affect the outcome of Request for Comments (RfC), a deliberative discussion on Wikipedia, by using mixed methods: 1) interviewing Wikipedia editors and 2) creating and quantitatively analyzing an English RfC dataset [c11].

MIT App Inventor, MIT

Oct. 2016 - May 2017

Undergraduate Research, advised by Paul Medlock-Walton and Hal Abelson

- Enabled novice programmers to create modular code in the App Inventor, by developing customized blocks within the system that can execute any functions of an imported API. Implemented virtual reality (VR) blocks in the App Inventor to help novice users build VR apps [c12].

Soft Active Materials Lab, MIT

Sept. 2016 - Feb. 2017

Undergraduate Research, advised by Hyunwoo Yuk

- Developed 3D printing based soft robotic hands with stand-alone actuation and control system. Implemented the software interface for precise 3D printing for advanced soft materials.

Invited Talks and Panels

PrivacyCon 2024, Federal Trade Commission

Mar. 2024

Less is Not More: Improving Findability and Actionability of Privacy Controls for Online Behavioral Advertising

Professor Hyejin Youn's group, Kellogg School of Management at Northwestern University

Feb. 2024

Consent and Consensus on Social Computing Systems

Faculty Media Skills: Ask the Experts, University of Michigan School of Information

Feb. 2024

Invited to talk about my experience interacting with the media as a PhD student (panel discussion).

Cornell Information Science PhD Seminar, Cornell University

Nov. 2023

Affirmative Consent and Power Dynamics as Lenses for Designing Social Computing Systems

Radical Futures for Social Media, Yale Law School's Social Media Governance Initiative

Mar. 2023

Interface Designs and Business Models for Safer Social Platforms (panel presentation)

GermSyllabus talk series, Germ Network

Nov. 2022

Affirmative Consent in Platform Design

Expertise@Scale Lab, Carnegie Mellon University

Mar. 2022

Designing and Building Social Platforms Grounded in Consent

DUB Shorts Seminar, University of Washington

Aug. 2021

Yes: Affirmative Consent as a Theoretical Framework for Understanding and Imagining Social Platforms

MetaGov Seminar, Metagovernance Project

Apr. 2021

Reimagining and Building Social Platforms Grounded in Consent

HCI Seminar, Seoul National University

Jan. 2021

Reimagining and Building Social Platforms Grounded in Consent

Wikimedia Showcase, Wikimedia Foundation

Sept. 2018

Deliberation and Resolution on Wikipedia: A Case Study of Requests for Comments

IAR Seminar, University of Michigan School of Information

Sept. 2018

Deliberation and Resolution on Wikipedia: A Case Study of Requests for Comments

Teaching Experience

| | |
|---|-------------|
| SI 539: Web Design, Development, and Accessibility, University of Michigan <i>Graduate Student Instructor</i> | Winter 2020 |
| <ul style="list-style-type: none"> A graduate course providing hands-on approach to learning responsive, accessible front-end programming for Web Design. Topics covered include HTML5, CSS3 (including Bootstrap framework), JavaScript, and the POUR design principles of accessible design. Led 2 discussion sections per week. | |
| SI 339: Web Design, Development, and Accessibility, University of Michigan <i>Graduate Student Instructor</i> | Fall 2019 |
| <ul style="list-style-type: none"> An undergraduate version of the course above. | |

Academic Mentoring

I listed the next positions of students for whom I helped faculty write a letter of recommendation (these students tend to have been interested in Masters/PhD programs; just noting this as other students have also been amazing). If you are a student who feels uncomfortable having your name included for whatever reason, please let me know. I will completely understand. Also, I have informally mentored some other students by consistently giving them high-level advice on research and career.

Select Academic Service

Reviewing

Special Recognitions for Outstanding Review: UIST 2022, CHI 2023 (4 times), CSCW 2023 January cycle

CHI (2021 - 2024), CSCW (2019 - 2021, 2023 - 2024), FAccT (2023), ICWSM (2022, 2024), UIST (2022), IEEE Pervasive Computing (2022), PLoS ONE (2021), IEE ICDM (2019)
CHI LBW (2020, 2024), CSCW Poster (2020)

Others (Selected)

FAccT, Program Committee (Reviewing)

2023

Leadership and Outreach

UMSI Diversity, Equity, and Inclusion Committee, PhD student representative Fall 2022 - Spring 2023

- PhD student representative for UMSI's DEI committee, which focuses on "school level efforts to promote an equitable and inclusive community across students, staff, and faculty."
- Contributed to shaping School of Information's DEI 2.0 Strategic Plan.

UMSI PhD Student Internship Information Session, Organizer Fall 2021

- Organized a panel to give junior PhD students advice on finding and securing internships.

UMSI & CSE Student Initiated Doctoral Program (SIDP) Design, Assistant to faculty Fall 2020

- Assisted faculty members in drafting a proposal for evaluating students that want to pursue a PhD in both SI and CSE. Led the effort as the only PhD student.
- I was told that I may be the first PhD student to be *formally evaluated* by SI and CSE PhD program committees and enrolled in the two programs via U-M's Student Initiated Doctoral Program (SIDP).

Michigan Interactive and Social Computing (MISC), Student Organizer Fall 2020 - Winter 2021

- Co-organized speaker series on HCI and social computing.

Doctoral Executive Committee (DEC), Member Fall 2019 - Winter 2020

- DEC is a group of PhD students that represents the voice of UMSI PhD students.
